Dear Algy

Band Store

Thank you for asking if I would clarify the agreement for Wadhurst Brass Band to erect a small instrument store near the front of the College.

You will appreciate that all relevant documentation will have been left at Uplands, but I can confirm that this was agreed in 1994 on the clear understanding that all costs would be met by the Band itself, that relevant planning permission was secured and that the scheme carried the approval of East Sussex County Council as landowner. I remember relevant officials visiting the college and giving their agreement, but written confirmation will have been filed appropriately.

I hope that this is helpful

With all good wishes

Yours sincerely

David James
